# *The three R's*

For AT read IT?

Do you have a good understanding of your current AT?

How do you categorise those who should benefit from AT?

# *The three R's*

How do you select the AT solutions that meet a disability type?

Do you provide campus wide or individual solutions?

Can a student go home and access the same data as they do on Campus

# *The three R's*

Do you have a central AT budget?  
Is it business case driven?

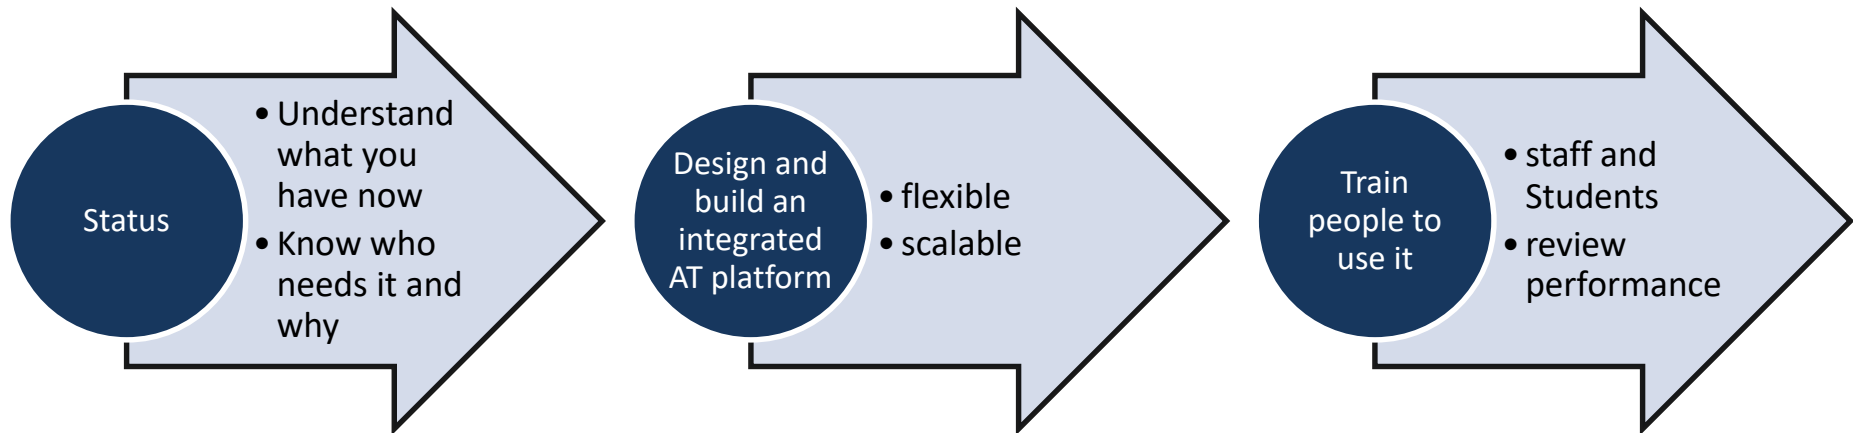

How do you measure the  
performance of your AT and the  
shift in need?

How do you keep abreast of new  
solutions?

# *Getting AT Ready*
